6. Transfer of personal data to a third country or international organisation	Data can be transferred to a third country or an international organisation when the EU Commission has approved the third country or international organisation to provide an adequate standard of data protection. In other cases, the National Land Survey takes care of appropriate safeguards regarding the data transfer.
7. Storage time of personal data	The data will be stored up to date and part of the data is stored permanently in accordance with the National Land Survey information management plan.
8. The legitimate interests pursued by the controller or by a third party (where the processing is based on a pursued interest)	Personal data is not processed for the purposes of legitimate interest pursued by the National Land Survey or by a third party.

9. The rights of the data subject

The data subject has the right to request access from the National Land Survey to personal data concerning himself or herself, that is to check his or her personal data stored in the register in accordance with the EU General Data Protection Regulation. The request shall be sent to the National Land Survey's Registry.

The data subject has the right to request from the National Land Survey a correction without undue delay of inaccurate or incorrect personal data pertaining to the data subject. The request to correct personal data shall be sent to the National Land Survey's Registry.

The data subject does not have the right to request the National Land Survey to remove personal data pertaining to the data subject when the processing of personal data is necessary to comply with a statutory duty, to perform a task in the public interest or in the exercise of official authority.

The data subject does not have the right to request the National Land Survey to limit the processing of personal data pertaining to the data subject when such processing is necessary for the National Land Survey to comply with a statutory duty. The data subject does have the right to request the National Land Survey to limit the processing of personal data pertaining to the data subject when the processing of personal data is based on the performance of a task in the public interest or in the exercise of official authority. The request to limit the processing of personal data shall be sent to the National Land Survey's Registry.

The data subject does not have the right to oppose the processing of personal data pertaining to the data subject by the National Land Survey, when such processing is necessary for the National Land Survey to comply with a statutory duty. The data subject does have the right to oppose the processing of personal data pertaining to the data subject by the National Land Survey when the processing of personal data is based on the performance of a task in the public interest or in the exercise of official authority. The notification of opposition to the processing of personal data shall be sent to the National Land Survey's Registry.

The data subject does not have the right to request the National Land Survey to transfer personal data pertaining to the data subject when the processing of personal data is necessary to comply with a statutory duty, to perform a task in the public interest or in the exercise of official authority.

10. Right to withdraw consent for processing personal data

Personal data is not processed on the basis of the consent of the data subject.

11. Right to appeal to the Data Protection Ombudsman

The data subject has the right to lodge a complaint with a Data Protection Ombudsman, if the data subject is of the opinion that the National Land Survey does not comply with personal data processing legislation.

12. Obligation to submit personal data

The providing of personal data is necessary for compliance with a legal obligation to which the National Land Survey is subject, for the performance of a task carried out in the public interest or for the conclusion of a contract based on consent.

13. Source of personal data

Data is collected directly from the person himself or herself and his or her supervisor or from a person whose duties include planning of working hours and resources at the National Land Survey.

In addition, information is obtained, among others, from the following data sources:
